"Not only did we get a great price for our home, he also saved us many thousands of dollars with the way he handled the offer and costs, netting us more cash in our pockets than expected."
 — Deborah G., on Yelp

"He saved the deal from falling apart when the first appraisal did not work out and the buyers' loan agent goofed up. He did more than always keep his promises. He did many extra things for us, too, like finding a buyer for our baby grand piano!"
 — Ken L., on Yelp

"The price I got for my house was higher by six figures than the other ... Realtors told me I could get PLUS the buyers were all cash PLUS it took only two weeks to close the escrow."
 — Rose R., on Yelp
